Estimated Production Cost in Euro	<i>Estimated cost of luminaire without the lamp-ballast combination : Above 75 Euro</i>
Estimated Retail Price Class in Euro, excluding pin-based bulb and value added tax	<i>299 Euro</i>
Product Description:	
<p><i>"BETWEEN 2 SHAPES" draws its name from the two major components of this luminaire – an interior form from which the light originates, and an outer form, hiding and protecting the source of light. Porcelain was decided upon as the material for its warm and pleasant semi-translucence, changing with the thickness of the material, its formability and for its aesthetic impact. Lighted, the lamp is a softly glowing presence, spreading light and life around; turned off, it becomes a sculptural physical presence reminiscent of eggshells and fossils; brittle and fragile, yet strong and enduring. Private homes and office buildings alike may employ the multidirectional lamp for a multitude of purposes, thanks to the 360 degrees turnability in both the horizontal and the vertical plane.</i></p>
